Bern, 22. June 2012

**Official recognition of CIDEMCO-Tecnalia by VKF (Association of Public Building Insurance Companies) and FBT (Construction Technology Commission) in Switzerland**

Dear Miss Martinez Lanz

Your application dated 23. April 2012 seeking official recognition from VKF (Association of Public Building Insurance Companies) as a testing institute for fire resistance testing of building components has been evaluated by FBT (Construction Technology Commission) on 19. June 2012. Based on the application documents submitted, the commission verified your field of testing activity and your technical and professional qualifications. The FBT decides to officially recognise the test laboratory

**Technalia Research & Innovation, Area anardi 5, 20730 Azpeitia, Spain**

as a testing institute within the framework of the Swiss certification and homologation process and will add it to the list of fire resistance testing institutes recognised in Switzerland according to European test and classification standards.

Please see our homepage [www.vkf.ch](http://www.vkf.ch) for further information.

The FBT (Construction Technology Commission) and the VKF (Association of Public Building Insurance Companies), look forward to a positive and constructive working relationship.

Please don't hesitate to contact us if we can be of any further assistance.

Kind regards

Association of Public Building  
Insurance Companies  
Certification / Homologation

  
Michael Binz

  
Werner Berger
